

The Charge of the Light Brigade  
*(Apologies to Tennyson)*

The reps from the company came to the door  
Demanding a payment they'd argued before;  
They claimed that the light bill increased by the hour,  
And if it weren't paid they would shut off the power.

The customer told them they'd hooked him up wrong,  
A ground and a hot had been switched all along.  
Although they denied that the bill was too large,  
When they touched the switch they absorbed the full charge.
